Attachments: Agency_SideBySide.xlsx

Sean,

The request we talked about earlier. Tom's note below after the first sentence deals with other, but related stuff, while I pinch hit for him at IWGOS meeting.

But the key here is the attached spread sheet.

Jerry

Subject: FW: DMP comparison chart

Can you take a look at the xlsx and determine if any EPA updates are needed. Once done please forward directly to Andrew Mendoza (OSTP) with a cc to me.

Jerry – Andrew may ask about this next week at IWGOS. Also, a couple IWGOS updates for next week ...

- GAO did contact EPA about beta testing their questionnaire on Agency responses to public access. We were unavailable on the date they were looking for so they sought input from other agencies. We did not see the questionnaire.
- EPA has written a Report to Congress updating the hill on implementation of our Plan to Increase Access to EPA funded Research. The report was sent to OMB which cleared it last week without comment. As of today it is in final sign-off in OCFO. Hopefully it will have been delivered to Congress by the time IWGOS meets. We will post the RtC on our website.
- As of today, 179,800 public comments have been sent into the docket on EPA's proposed rule - Transparency in Regulatory Science. EPA will hold a public hearing at our headquarters on July 17th. Public comments close on August 16th.

Subject: FW: DMP comparison chart

Dear IWGOS Members,

Thank you everyone for your responsiveness to my request for information regarding grant terms and conditions. I really appreciate how quickly everyone responded.

On another note, one of items that has come up recently at our meetings are the comparisons of agency data management plans. As you may remember, we distributed the attached agency DMP comparison chart at the last IWGOS meeting. With the Working Group's plans moving forward, it would be helpful if all agencies could update the information on the chart so that it reflects their current guidance or requirements. If additional columns are needed to accommodate other types of instruction/information, please feel free to add them and we can consolidate on the back end. To start, I have added two columns with Jerry's recommendation regarding maximum page length and whether the DMPs (or any portion of them) are made public.

If possible, please submit your agency's update before the end of next week.

Thank you so much!

Andrew G. Mendoza
